FibaFuse™ Paperless Drywall Tape

## QUANTITY

6,000 Rolls

## DEVELOPER

Extell Development Co.

## CONTRACTOR

R & J Construction Corp.  
4435 Austin Blvd.  
Island Park, NY 11558

## INSTALLATION DATE

September 10, 2009

## PROJECT DETAILS

Project exclusively used FibaFuse™ Paperless Drywall Tape for flat and inside corner joint seams. The total number of rolls required for the job is 6000, making this the largest job to date for FibaFuse. FibaFuse is easy to embed and clean up – no excess pressure is needed as is common with paper. Successfully applied FibaFuse with both an automatic taper and hand-taping techniques. As specified by the architect, FibaFuse offered a mold resistant option to compliment the moisture resistant drywall board used on the project.
